

DDI #02039-86
26 June 1986

MEMORANDUM FOR: Chairman, Intelligence Producers Council
Chief, Intelligence Producers Council Staff

SUBJECT: Tasking from NFIB re FIRF

1. At today's NFIB meeting, DDCI and DCI laid out a proposal for an NFIB review of the top level requirements in the FIRF. The idea would be to pick the 70 or so top level requirements and ask each of the NFIB principals to comment on the list, as well as to divide them into some relative priority -- high, medium, low. He would like a memo from the Chairman, IPC to the NFIB principals, forwarding the list describing what the list is and is not, and asking for their comments (back to the IPC) by 29 August.

2. You probably should get ahold of the NFIB minutes so you know exactly what Bob suggested. The 70 requirements should involve the 1990-1995, 2000 timeframes.
